EXPERIENCE

Software Development Engineer -1   Feb 2023 – Present
Intelligent Retail Private Limited   *Bengaluru, KA*

- Developed features that improved order management, reduced manual errors and increasing productivity.
- Integrated third-party libraries to enhance functionality and user experience.
- Collaborated with cross-functional teams to design, implement, and maintain responsive web applications.
- Ensured pixel-perfect, responsive UI design by collaborating with designers and resolving UI issues using browser tools.
- Utilized JIRA for task tracking and sprint management, increasing team efficiency by 30% and ensuring timely delivery of features.

Application Support Engineer   Feb. 2022 – Jan. 2022
Intelligent Retail Private Limited   *Bengaluru, KA*

- Resolved Remedy tickets within SLA, collaborated with the Dev team to automate recurring issues, and maintained support documentation
- Collected customer feedback to help improve the application

Transaction Risk Investigator   Jan 2021 – Nov 2021
Amazon   *Bengaluru, KA*

- Identification of fraudulent activities committed by sellers

PROJECTS

Weather App | *React, Axios*

- Developed a weather application using React and Axios that allows users to enter a city name and fetch the current weather information using data from the OpenWeatherMap API

Tic-Tac-Toe | *React*

- A game built with React, featuring a 3x3 grid where players can take turns marking 'X' or 'O' on the board, with logic to determine and display the winner

Todo-App | *React, Tailwind CSS*

- Developed a task management application that allows users to add, edit, delete, and mark tasks as completed.
- Implemented local storage to ensure tasks persist even after the page is refreshed
- Added features to toggle the visibility of completed tasks, enhancing task management efficiency.

Shamaya-Store | *React, Styled Components, React Router DOM, Context API*

- Created a dynamic e-commerce website utilizing a third-party API to display products.
- Implemented grid and list views, filtering by brand, category, and price, as well as sorting by alphabetical order and pricing
- Developed features including product detail pages with descriptions and reviews, search functionality, authentication, and an add-to-cart feature.
- Focused on responsive design and user experience to provide a seamless shopping experience.
